CLUB DOINGS

TUESDAY AFTERNOON ORGANIZATION CONSIDERS REAL ESTATE PROPOSITIONS

The weather and the "flu" ban apparently combined to cut down attendance at the meeting of the Tuesday Afternoon Club yesterday, but an excellent program rewarded those who did come out.

After the singing of the "Star Spangled Banner" by the audience, the reading of the minutes by Mrs. Stamps and announcements of section meetings by Mrs. Von Oven, Mrs. E. W. Kinney was introduced, who explained the decision reached by the executive board of the club that now is an opportune time to convert the real estate holdings of the organization into property that can be utilized for the home which the club plans to build. She explained that this real estate is in the form of two lots upon Harvard Street, one upon the corner of Kenwood, the other upon the opposite side of the street, one having cost $1000, the other $2000, and that the committee of negotiation consisting of Mrs. Charles Temple and herself had found it impossible to persuade the owner of the lot adjoining the corner to sell additional frontage on Harvard; that all were agreed that one lot would be entirely inadequate. She expressed the conviction that Glendale will soon be a city of considerable size and that its Tuesday Afternoon Club will have a membership of one thousand. For this rea-

(Continued on Page 4)

HYDE-RYAN

Mrs. Mary Ogden Ryan of 419 E. Harvard announces the marriage of her daughter, Evelyn, to Dr. Clarence Elmer Hyde of San Francisco on February 22. This is the culmination of a pretty romance commenced last spring when the bride had influenza and the groom was attending physician.

Dr. Hyde is a rising young physician of the Northern city, a graduate of Stanford, also of Columbia University and he has also had two years post-graduate work in the hospitals of New York City. He is a son of Geo. E. Hyde, well known fruit grower and packer of Campbell, Santa Clara Valley.

The bride was born and raised in Southern California and was educated in Glendale City Grammar and High Schools and the Southern Branch of the University of California.

GLENDALE MINISTERS INTERESTED

A meeting of great importance, which practically all of the Glendale ministers will attend, opens at the United Presbyterian Church in Los Angeles tomorrow morning. It is a conference in behalf of the Inter-Church World movement, which seeks by the united efforts of all church people to back up all movements for the uplift of humanity. The conference which has just closed in Phoenix, Ariz., indorsed the project of establishing a million-dollar tuberculosis hospital in that state.

FAVORS ADDITIONS

W. B. KELLEY SAYS PROPOSED PLAN TO BOND DISTRICT UNCALLED FOR

The Glendale High School question is one of vital importance and must be considered from the standpoint of doing the most good for the entire community. The education of our young Americans of the present generation and of the generations to follow is a thought that is dear to the heart of every true American.

The bonding of our school district for $425,000 seems to me at the present time to be exorbitant and uncalled for. The expenditure of $100,000 in new additions to the present buildings would meet the requirements of the High School for the next ten years. An additional sum of $25,000 could be put aside to acquire acreage suitable for a school site for the future. In the meantime this acreage could be cleared and leveled and used for military training which is an important part in the future education of Young America.

The question of extending the group of buildings out to Brand Boulevard and the purchase of the property out to the Boulevard would seem like bringing the schools into the business district.

My sentiments are against a large bonding issue, against acquiring property on Brand Boulevard, but I do favor additions to the present buildings W. B. Kelley.

BENEDICT-TO-BE

R. C. CHAMBERS, JR., SOON TO MARRY AND ESTABLISH HOME IN GLENDALE

A radiantly happy man is R. C. Chambers, Jr., member of the firm of Chambers & Felts, Hudson-Essex agents, this city, for his approaching marriage to Miss Mary Stephens Lippincott has been announced. He has not said just when it is to be beyond admitting that it will occur some time within the next three months.

The bride is the daughter of Mr. and Mrs. Charles Lippincott of Los Angeles, is prominent in society circles in that city and is a talented pianiste. It is an affair of long standing, the young people having known each other for twelve to fifteen years.

Mr. and Mrs. Lippincott came to Los Angeles from Moline, Ill., where they were interested in the Moline Plow Works, established by Mrs. Lippincott's father, which interests were disposed of before they came to California.

The bride-to-be is charmed with Glendale and shares the good opinion of it entertained by Mr. Chambers, who declares it is the prettiest little city he ever saw, though he predicts that it will not remain little very long. The young people expect to make their permanent home here as soon as they can find a location that suits them upon which to build.

Mr. Chambers was an ensign in the navy during the war and as paymaster had the responsibility of big business affairs and the handling of huge sums of money. This experience, in addition to his training in commercial life, was of great value to him and the better fitted him to carry on a business of his own. His partner, Mr. Felts, was also in the navy and he and Mr. Chambers are in full accord in their expectations and plans for an expanding business. They intend to take over the entire building, including the shop at the corner of Brand and Colorado, where their agency is located and to redecorate, rearrange and refurnish their salesroom.

YES: VOTE NO WHY?

Because location is indeed important. Twice we have been mistaken in choosing our location for the Glendale High School, and the size of the grounds.

Is there anything too good for our school children?

No, there is not, but the present location forces the students into the business center of Glendale during their recreation hours. This is not restful or helpful either to them or the business public.

Environment and surroundings have as much to do with the education of a child as book learning.

The school law says the students are under the charge of the teachers. How do they do it?

Some months ago while attending to business with a merchant a group of High School boys were fooling and some smoking on the two prominent corners of Glendale. A number of girl students of the High School entered the store all talking in loud voices, whose vibration filled the room. The owner said: "What are our young people coming to? They don't realize they are disturbing any one. It is a pity the High School is so near."

Another merchant said: "This is what we are forced to contend with and not this alone. The boys come in in groups. They plan for one to buy and the others swipe what they can. This is a growing evil."

This is not healthy for our children or the community.

For these conditions if nothing else I am opposed to continuing indefinitely the present site by buying more property adjoining.

But there are many other reasons. The Tuesday Afternoon Club is seeking a location, but avoiding Brand Boulevard.

Why?

Because of the impossibility to hear speakers or enjoy music with the cars and traffic on the street. Why would you build an auditorium for our children there?

Still friends call, and the phone rings; and the question is asked: Why DO you oppose the bonds?

(1) Because I sympathize with the ignorance of these bond advocates of the coming growth of Glendale.

(2) Because I know when they do understand they will love to correct their erroneous idea of locating on Brand Boulevard.

(3) Because I love children, and their needs are nearer and dearer to me than a High School building for show, or an opportunity to boost real estate.

(4) Because I always believe in the greatest good to the greatest number.

(5) Because the—"NOW"— is all we have, and the bonds would never help the individual student of today.

(6) Because the noises on Brand are too great to permit the imparting of knowledge by voice or music.

(7) Because I know our Trustees have in the past been good men, but their vision did not reach into the future.

(8) Because I know the present Trustees are some of our best men and they need our help and support to defeat the bonds.

Therefore—I shall vote NO for the first time on school bonds.

ELLA W. RICHARDSON,
525 S. Central Ave. Phone 1559-J.

TRAGEDY AT SOUTH PASADENA

MISS HOUSEL, HEAD OF HUNTINGTON HALL, MURDERED BY INSANE EX-EMPLOYE

(Special Service to Glendale Evening News)

LOS ANGELES, Feb. 25.—H. W. Bowen, 58 years old, formerly house-man at the exclusive Huntington Hall School for Girls in South Pasadena, early today shot and killed Miss Florence Housel, fifty years old, owner and manager of the school, set fire to the building and then committed suicide by firing a bullet into his brain. Bowen's body was found by deputy sheriffs in a small building adjoining the school. Apparently he had killed himself with the same revolver he used in slaying Miss Housel.

Miss Housel's body was found by her father, Herman N. Housel, eighty years old, soon after he was awakened by the shot which killed his daughter. The bed on which she was lying was covered with blood which had flowed from a wound in her throat. Smelling smoke, Housel went to the kitchen and extinguished a fire blazing furiously there. Bowen had ignited a quantity of excelsion which he had saturated with distillate. A deputy sheriff found that a number of old mattresses, furniture and other objects stored in the attic had also been saturated with distillate, but these were not ignited.

The officers believe that Bowen suffered from the delusion that Miss Housel had persecuted him. He had recently been confined in an asylum.

Miss Housel was a graduate of Wellesley College and came to California about twenty years ago. Thirty young women, the daughters of millionaires, are students at the school.

NEW SECRETARY OF STATE

CAMBRIDGE COLBY, POLITICAL INDEPENDENT, APPOINTED BY PRESIDENT WILSON

(Special Service to Glendale Evening News)

WASHINGTON, Feb. 25.—Cambridge Colby, an independent in politics with democratic leanings, was appointed Secretary of State today by President Wilson to succeed Robert Lansing.

The appointment came as a great surprise to Washington officials and politicians who had expected the president to name a strong democrat to the post of ranking cabinet officer. Colby, until a few years ago, was regarded as a progressive republican. In 1916 he supported Roosevelt but switched to Wilson when Roosevelt refused to run as a progressive. He was appointed to the Shipping Board as an independent. Although he refused to disclose his politics, saying it would be in bad taste before the Senate had confirmed his nomination, close friends asserted that Colby is now a democrat.

Some politicians see in the president's appointment of Colby evidence that Wilson believes that party lines are being eradicated. In this connection they recall his famous letter of congratulation to Calvin Coolidge when he was elected governor of Massachusetts.

LIQUOR REVOLT COLLAPSES

EXPECTED BLOODY FIGHT ENDS IN CONFERENCE OF ALL CONCERNED AT GRAND RAPIDS, MICH.

(Special Service to Glendale Evening News)

IRON RIVER, Mich., Feb. 25.—Michigan's liquor revolt collapsed today. In place of a bloody war between prohibition officers and county officials over the alleged interference of the latter in the prohibition inspector's seizure of evidence, there came a request for a conference between all concerned. Major Dalrymple requested Prosecuting Attorney McDonough to accompany him to Grand Rapids for a conference with the district attorney there. Acting on the advice of his superiors in Washington, Major Dalrymple, who is the prohibition commissioner for the central states, abandoned his warlike preparations. Dalrymple's force consists of thirty-five men, all of whom are heavily armed.

MEXICAN BANDITS MAKE ANOTHER CAPTURE

ABDUCT AMERICAN SMELTER SUPERINTENDENT AND ARE HOLDING HIM FOR RANSOM

(Special Service to Glendale Evening News)

WASHINGTON, Feb. 25—Mexican bandits have captured Harry Hogarty, American superintendent of the American Metals Company smelter in the state of Durango, and are holding him for ransom, state department officials were advised today.

FOUR REASONS

PROPOSED BONDS UNNECESSARY, UNBUSINESSLIKE, UNDESIRABLE, IMPRACTICABLE

Unnecessary

Because the unquestioned needs of the High School can be supplied for a few years to come without buying additional ground.

Unbusinesslike

Because the price to be paid for the land proposed to be acquired is merely guessed at, no options having been secured so far as the public has been informed. Because the estimates of the cost of the improvements are based upon plans and specifications furnished before material and labor had reached the unprecedented figures prevalent at present. Because at the present time it is unlikely that any contractor would bid on the work and conditions are not improving. Because in the event of the bond issue being authorized and assuming the bonds could be sold, the ideas of the trustees, so far as known to the public, could not be carried out, and the district being bonded to its limit would be practically bankrupt and helpless.

Undesirable

Because the present buildings are now too near to the railway tracks, and class rooms and auditorium located on Brand Boulevard would be objectionable on account of the noise of traffic and passing cars. Because soda fountains, ice cream parlors and motion picture shows, although perfectly legitimate and desirable for refreshment and recreation, should not be unnecessarily adjacent to any school for young people.

Impracticable

Because it does not appear just how the lots on Brand Boulevard are to be acquired when two of the five or six owners very earnestly object to selling and it is difficult to see how they can be compelled to do so. The twenty-four lots in Block 60 are owned by 18 or 20 persons who will have to be negotiated with on their own terms, and some of them are known to oppose the proposition. Further than this, the closing of Louise Street to make this block available, can only be done by legal proceedings, which will be bitterly contested.

In view of all these existing conditions every citizen of the Glendale Union High School district having the best interests of the pupils of the district at heart are asked to vote "NO" at the bond election next Friday, and then advocate the plan adopted by the Welfare Association.

Member of Union High School Welfare Ass'n.

MOUNTAIN OUTING

Blake Franklin, his sons, Donald and John Blake, and Jack Levinge, have gone to Lyons Springs for a camp outing of several days. They had planned to leave last Thursday, but the storm upset their calculations. Mr. Franklin expects to return Saturday night, but if the older boys learn that school will not reopen next week, they will remain for another seven days. The altitude of Lyons Springs is about 3500, and it is said to be warmer than here in the valley.

FOR GOOD OF SCHOOLS

ARCHITECT PRIEST GIVES OPINION ON HIGH SCHOOL LOCATION

I have been asked to express my opinion regarding the advisability of alterations and additions to the present Union High School building which would provide an auditorium of adequate size to meet the requirements of the school for a period possibly of five years.

I do know that alterations ctn be made to the present building which will give the accommodations necessary for that period. These alterations would be in the nature of an addition to the south of the present main building, allowing the auditorium to extend to the south and class rooms placed to each side of auditorium, with a wide corridor intervening between auditorium and class rooms.

The general arrangement would not be one that would be particularly desirable if you were constructing a new building, but will give accommodations that will allow the present conditions of congestion and inadequate room to be overcome.

The present group of buildings is not properly placed to permit added units being made from time to time and have anything that would be desirable when completed.

Therefore, I believe that to do as little work as possible on the present buildings, would be the advisable move. The time will come when Glendale will expect as fine a group of High School buildings and school campus as any other sister district. She can not have this retaining the present site.

The reason for lack of forethought regarding our present site as to size and placing of buildings would not be due to any individual or particu-

(Continued on Page 4)

FLOOD CONTROL WORK NEARLY DONE

The men working under Engineer C. E. Daley are now engaged in stringing wires on the piling and filling in with brush. The pile drivers are through with their work and have been put away in the storage yard. The filling in of the approaches to the recently completed concrete bridge on the East Brand Boulevard roadway is proceeding rapidly and will be completed next week. One abutment and one pier for the west side bridge have been completed and excavations are being made for the other abutment and pier. While plans have been completed for the P. E. single track bridge that is to be built between the two highway bridges, work on it has not commenced, and no date has been set for it. The Sycamore Canyon work yet remains to be done, but that is a small job, Mr. Daley says.

MUCH BUILDING ON WEST SIDE

There have been 33 residences commenced and many of them finished in the region bounded by Broadway and the Wash, Columbus Avenue and Pacific Avenue during the past six months and six west of Pacific Avenue, which, though within the city limits is considered by many as "away out in the country."

HIGH SCHOOL BONDS

The present high school site is bad, and with the addition of the proposed Brand Boulevard frontage it will be worse, and will grow more and more undesirable as business and traffic increase. Now is the time to buy a new site of twelve to fifteen acres in an ideal location near the trolley lines at the cost of just the one acre on Brand Boulevard. Then after a few years when conditions are more favorable, build an ideal group of high school buildings which will be right up-to-date at that time.

There is URGENT NEED for additional auditorium and classroom space AT ONCE. Our plan of adding to the present building will provide this space sufficient for the next five years and it can be accomplished without interrupting any school sessions and be ready for use next fall, if due diligence and co-operation is exercised by those who would have the matter in charge. This would include an auditorium seating 1500, science rooms, class rooms and a new gymnasium for the girls. An expenditure of approximately $150,000 will pay for the new site, to be selected by the voters, and for these improvements.

By the plan proposed in the $425,000 bond election no additional space would be ready for the school until the fall of 1921. THINK OF IT! THEN VOTE "NO" on this bond election, and request another bond election immediately for $150,000 and have the proposition handled in a way that will be better for IMMEDIATE NEEDS and for ULTIMATE RESULTS.

ARTHUR G. LINDLEY.

The above recommendation from Mr. Lindley, who is a resident of Glendale, a property owner, a patron of the school, and a recognized architect in Southern California, should be heeded.

U. S. BOYS BEST WIRELESS OPERATORS

Boys of the United States make the best wireless telegraph operators in the world. In no other country does the average boy know so much about wireless or take so keen an interest in it. Before the war the United States contained 175,000 wireless stations, large and small, scattered throughout every section of the land. The most of these were amateur wireless stations built and operated entirely by boys. No country in Europe has anything like as many stations.

During the war it became necessary for the government to close most of these wireless stations and regulate the others very rigidly to prevent any enemy using them for his own ends. Now that the war is happily over the government has removed these restrictions, and any American boy is free once more to equip and operate a station of his own. The interest in wireless telegraphy is reviving by leaps and bounds and in a short time we will see more wireless stations in operation than ever before. It will be the purpose of this article to encourage the interest of boys in this fascinating pastime and lend practical assistance each month.—Boy's Life.

PUBLICITY FOR PRESIDENTIAL CANDIDATE

Along with the announcement of the employment of a number of high-priced newspapermen to have charge of the publicity for a presidential candidate who, it is known, is not rich in this world's goods, is the statement that a nation-wide intensive advertising campaign is to be inaugurated.

Not in a spirit of criticism, but through curiosity, we wonder where the money comes from to meet the expenses of such campaigns. The fund that will be required will be no small one—not a few thousands of dollars, but many, many thousands. It must have a source, and it would be interesting to know where that source is.

The law in most states, and in the nation, limits political parties and candidates in the matter of campaign expenditures. But just the same it would be most interesting to know the facts, the names and amounts of the donors, and their interest in the candidate they back so heavily.

The same campaign has been asked in connection with recent campaigns in California, but never answered. And it costs more to conduct a national than a state campaign—much.—Bakersfield Californian.

ANNOUNCEMENTS

ADVERTISEMENTS

Friday, February 27th, at the G. A. R. Hall in Glendale an entertainment will be given for the returned soldiers and sailors at 12 M. sharp. All soldiers and sailors whose names are below and any others will be welcome.

CHRISTIAN AMERICANIZATION

"America is not a 'melting-pot.' It is something far more human and vital, more divine and spiritual than that. What we need to keep steadily in mind is that the process of Americanization is not the reduction of all to a common denominator, but the elevation of all to the highest possible plane; to consider that each race reacts upon the other to the enrichment of all; and to endeavor to realize that the various racial stocks, thus contributing, lose their separate and distinct identity in the building of a new entity, a new race, which shall be a demonstration, in this day of grace, of the blood brotherhood of all men and the spiritual oneness of the sons of God."—Charles A. Brooks.

America's genius for assimilation, with practical suggestions for solving some of these great national problems, will be the theme of study in a "School of Missions" on Wednesday evenings at the Presbyterian Church.

This evening Miss Rose Scott, a leader of culture and prominence, from the New Era Committee of Los Angeles Presbytery, will present the opening chapters of "Christian Americanization." Out of town speakers will bring vivid instances, recitals of personal experience with different nationalities.

Prayer meeting, 7:30-8:15; study hour 8:15-9:15, closing with a short social hour. The sessions are open to the public and all are heartily welcome.

ATTENTION OF N. P. BANKS CAMP SONS OF VETERANS

There will be a meeting of the Sons of Veterans at G. A. R. Thursday, February 26 at 7:30 p. m. when a full attendance is desired. Important matters are to come before the camp including the election and installation of officers. Division Commander Hyden will be present.

J. V. Griffin, See'y.

NOTICE

If you want to know the real facts concerning the Glendale High School, the officials will gladly give reliable information.

Hartley Shaw, president. 212 W. Park Ave. Phone 1293-R. Resident 8 years, trustee 2 years.

Personals

Chas. M. Retts will build himself a four-room residence at 114 West Park Avenue, at a cost of $1800.

Mrs. Marion Schumacher has contracted for the erection of a five-room residence at 405 Myrtle Street, to cost $4000.

Little Oneita Brown, who is living with her grandmother, Mrs. W. S. Allison, 332 West Windsor Road, has a well-developed case of measles.

The J. C. Peart home at 111 East Elk Street has been quarantined. The daughters of the family, Misses Eunice and Dorothy Peart, are confined to their beds with influenza, but are not alarmingly ill.

Rev. W. E. Edmonds and his son, Paul Edmonds, motored Tuesday evening to Alhambra to attend a Father and Son banquet given there under the auspices of the County Y. M. C. A., at which Mr. Edmonds was a speaker.

Mrs. H. S. Clewett of 526 East Windsor Road is looking forward to entertaining tomorrow her dear friend and old chum, Mrs. Whitehead and children of Long Beach, the city in which Mrs. Clewett spent her girlhood.

Miss Ethel Preston, retiring president of the Glendale Christian Endeavor District, was presented with a beautiful gold ring bearing the C. E. monogram, at the annual meeting last Sunday for the election of new officers.

Mrs. Sarah Porter Donohue, who has been spending the winter in Portola, Cal., with her son, James Hannibal Donohue, has returned to Glendale and is stopping with her cousin, Mrs. Anna Hare, of 443 Oak St. She has been absent from this city for several months.

L. E. Jackman, who moved to Glendale recently and bought a place at 1239 South Glendale Avenue, has not forgotten the lessons in thrift learned on the old Ohio farm and has already set about increasing the food supply by starting the cultivation of two vacant lots on South Central Avenue.

H. C. Dunkerson purchased the residence property at 639 Oak St. recently through the Glendale Realty Company Agency. Mr. Dunkerson is chief clerk to the Superintendent of the Western Union Telegraph Company. He has purchased lots through the same agency, and will build a fine residence soon.

Miss Mary E. Saxton, the teacher, is able to utilize her unexpected vacation this week in sight-seeing and other diversions with relatives who are here from Michigan, a sister, brother-in-law and niece. This afternoon the party, which will be augmented by Mrs. George E. Clayton, will motor to San Gabriel to see the Mission Play.

Mr. and Mrs. Blake Franklin and Mr. and Mrs. W. W. Worley of this city were guests Monday night at a party given at Hotel Clark in Los Angeles by L. H. Allen of Lacon, Ill., who is spending a couple of months in Southern California. The function celebrated his birthday and was a reunion of former residents of Lacon now in California. About twenty-five guests enjoyed his hospitality.

Dr. and Mrs. Montague Cleeves of 1276 Boynton Street Saturday evening entertained at dinner Mr. and Mrs. Earl Hitchcock and Miss Myrtle Teskey of this city. It was an entirely informal function and following the dinner a very pleasant social evening was spent in reminiscences of college days, all having been fellow students at the University of California.

W. A. Anderson, ex-city clerk of Redondo, who recently bought C. E. Russell's place at 345 West Lexington Drive, expects to move here this week. He and his wife, their married daughter and her husband, will occupy the home. Mr. Anderson said he had lived in Redondo twelve years and wanted to try a drier atmosphere. Glendale appealed to him as the ideal city in this respect, so he made the purchase above noted.

Mrs. Frank W. Chambers of 736 South Glendale Avenue had the pleasure of entertaining her two brothers, R. B. Fliter, who is in the navy and stationed at San Diego, and J. A. Y. Fliter of Los Angeles. The sailor lad had secured a special two-day furlough and come up to attend the automobile races which had been scheduled for Monday but which were postponed until Saturday next. He was greatly disappointed, although he of course enjoyed the visit with his sister and brother.

Mrs. Olin, an artist from New York City, who has been spending the winter in what is known as the Clark place at 247 North Central Avenue, entertained at dinner and for the night Monday evening, Mrs. Randolph Bartlett whose husband is one of the big publicity men of New York. She is spending the winter in Southern California. Mr. Olin is now in New York looking after matters in connection with moving picture enterprises in which he is interested. Mrs. Olin has made a great many sketches of California scenery and expects to have an exhibition of landscapes after her return to New York.

MET IN MICHIGAN

W. D. M'RAE LURES EX-MEMBER OF PEACE COMMISSION TO COAST

When W. D. McRae and wife were on their way to Canada last summer for a visit to the old home they met in Michigan H. G. A. Brauer, who had just returned from France where he had been connected with the peace commission. He was almost a nervous wreck from his long-continued and arduous labors and when Mr. McRae in glowing words painted the beauties of California and its healthful climate he declared his intention of coming out to the coast as soon as he could arrange his business affairs. This he did about a month ago and was so charmed with everything he saw that he decided to invest in property. He bought some lots in Hollywood before he had seen Glendale, but came out here to contract with the Glendale builder employed by Mr. McRae, to erect three houses for him. When he had looked over Glendale and noted its scenic beauty and building prosperity he told Mr. Pigg he greatly regretted not having invested here, but said when he sold his new houses in Hollywood, Glendale would be his choice for further investment.

Mr. Brauer has improved greatly n health since coming to the coast.

NEW RESIDENTS

MR. AND MRS. H. H. WEST YIELD TO PERSUASIONS OF RELATIVES AND LOCATE HERE

W. M. Cline of 536 North Maryland Avenue has returned from a business trip to San Francisco. Mrs. Cline is rejoicing over the fact that her brother and sister-in-law, Mr. and Mrs. H. H. West, of Los Angeles, will soon be residents of Glendale. They recently sold a home in La Fayette Square and yielding to the persuasions of Mrs. Cline decided to come to this city. They have leased property on Doran Street and, if after a year's sojourn they are as well pleased as Mrs. Cline predicts they will be, they will buy and become permanent residents. They have two daughters, one of whom will enter the High School, one the intermediate and also have a baby boy. Mr. West is president of the Western Rubber Supply Company, one of the largest in the West. Mrs. West is a cousin of Dr. A. W. Teel.

NEW CITIZENS MAKE MANY IMPROVEMENTS

G. S. Gunnerson has moved into the new five-room house on Harvard, west of Pacific Avenue, recently completed for him by W. S. Caldwell, the contractor. The latter has also built a new house at 516 West Broadway for Miss Anna Gunnerson and one at 524 for O. G. Rudie, and is now remodeling an old house for the latter, who is a brother-in-law of Mr. and Miss Gunnerson. They came to Glendale from Minnesota last year, bought seven and one-half acres of land, have had three new houses built and two old ones remodeled. Mr. Rudie and Miss Gunnerson will each have a $500 brooder house built for poultry raising. The three people named have invested fully $15,000 in new building since they came to Glendale and have thereby greatly improved the appearance of West Broadway and Harvard.

AUTO DAMAGED BY STRIKING POST

A Mrs. Kaim, who was driving her machine west on Burchett yesterday, ran into a post while trying to avoid striking two trucks, one of which was backing out from a driveway. The front of her machine was considerably damaged.

Mrs. Lexie Allison of 416 West Maple is seriously ill with influenza at the City Emergency Hospital. Mr. Allison has been quite sick, also, but is able to be up now.

The two sons of Mr. and Mrs. Charles H. Toll of Kenneth Road, who have been ill of influenza, are very much better and are able to be up and about the house.

Glenn Alden Hanson, the 4½-year-old boy whose leg was broken Tuesday when he was run over by an auto on East Colorado Street, is getting along very well, is the report this morning. The little fellow is blind in one eye, which accounts in part for his running in front of the auto which struck him down.

Mr. and Mrs. C. A. Clough of 120 South Jackson Street and their daughter and son-in-law left Glendale by auto at seven o'clock this morning bound for Visalia, where they will visit Roy and Beverly McCullough, sons of Mrs. Clough. They anticipated a delightful trip and were planning to return Friday.

Mrs. E. Collins and family, who moved in November from 423 Ivy St. to a home purchased at 314 Palmer Avenue, are busy developing their little ranch and having a great deal of pleasure in their work. She announces that tomorrow 500 little incubator chicks are due. It is her first personal experience in poultry production and she is finding it a fascinating affair.

WHO IS TO BLAME?

DELIBERATE LIES TOLD IN EFFORT TO BLAME RETAILERS FOR HIGH COST OF MEAT

Editor Glendale Evening News:

I wonder if you would give space in your paper to the following reply to some of the articles I have seen in different newspapers published in Los Angeles and delivered to our friends here in Glendale to the effect that while the wholesale price of meat has been reduced by the packer the retailer continues to hold the prices up. The first of these misrepresentations appeared in the "Herald" about the third of this month, supposed to come from Armour & Co.'s mouthpiece, R. D. MacManus stating that the packers were doing all they could to reduce the "H. C. L." and that beef had been reduced by the packers in the last six months two and one-half cents, hams nearly ten cents and mutton more than four cents. As a matter of fact that is a bare-faced lie, as I can prove by paid receipts on my files and also by the accompanying statement I have from one of the packers themselves which show that instead of falling the prices on all those lines have been rapidly advancing. This statement shows that beef has advanced 5 cents per pound since September, lambs 3 cents and hams instead of decreasing 10 cents are within one cent of the September price. Last Friday when making the usual rounds of the packing houses to select stock I was informed by the first one that all meats marked for delivery later than Tuesday of this week would advance as much as one cent per pound on beef and two cents on lambs. I left that house in the hope that that would not be general, but at every house visited the word was the same identically. Now, of course, I don't care much for being "stepped on" by the packers. I am used to that. But lo! and behold! on this very day when the packers of Los Angeles have handed out this verdict to us that we pay more, here comes out in the same Los Angeles papers word that our government has issued a warning to the retail meat dealers that since the packers have reduced their price to such an extent the retailer must reduce the price to the consumer or suffer the consequences. What does it mean? Is our government being hood-winked by the packers? Has our government officials no eyes nor judgment of their own? If there was one-half the evidence of a combine among the retailers, as is seen every day among the packers, the district attorney and all his force would be on the job at once. The government doesn't have to go any further than the bill files of every retailer in Los Angeles to know that these reports are untrue and they are certainly working a hardship on the retailer in that they create suspicion in the minds of our customers who in a small city like this are our friends and neighbors and I for one value the confidence and friendship of my customers above anything else and regret very much to have government officials make statements without foundation which tend to destroy these friendly relations.

C. W. Ingledue.

BOY ROBBER TO BE ARRAIGNED FRIDAY

Henry Pahland, the 19-year-old youth who held up and robbed a Japanese of $20 Saturday night, was arraigned before Judge Lowe Tuesday and remanded for his preliminary examination which will be held Friday. He does not realize the seriousness of his crime, as he telephoned a sister Monday that he had "stuck up" a Jap for some money, but to not tell his mother. The family, which consists of father, mother, five sons and two daughters, lived until a year and a half ago at 649 E. Palmer Avenue, but moved from there to Pasadena.

AMONG THE PEAKS

William MacMullin and party, which included Mrs. Helen MacMullin, Mrs. Jessie Cooksey and Mr. Stratton of Pasadena, returned Saturday after a week's outing at Big Bear in the MacMullin cabin. They report that it was just like a return to the home of their childhood in winter, when the boughs of the pine trees were laden with snow and when snow capped the fence posts. It was cold but very beautiful and a rousing fire in the fireplace overcame the objections of the weather. They made a quick return in their new car, reaching Victorville in three hours and making the run from there in four hours.

THOMAS JENSEN CLELAND

Reports from the home of Mr. and Mrs. J. W. Cleland of 1901 Gardena Avenue indicate that the new son of the house is thriving, that he likes Glendale and is trying to grow fast enough to keep pace with his native city. He was born January 27, 1920, and has been named Thomas Jensen Cleland.

G. A. R. ENCAMPMENT DATE SET

T. M. Barrett and Rev. C. R. Norton went to Huntington Beach Tuesday to attend a meeting of the Council of Administration of the Southern California Veterans' Association, in Patriotic Hall. At this meeting the date of the annual encampment, to be held in Camp John Davis at Huntington Beach, was set for August 3 to 13.

Why Has the Glendale Laundry So Large a Patronage?

Because so many people don't like the idea of sending their linen to the city laundries even though it comes home clean and in good condition. A laundry situated in the foothills of a city like Glendale appeals to the woman who likes to be sure that her linen is free from contamination of any kind and returned to her sweet and clean.

Doesn't this idea appeal to you?

Glendale 1630

CLUB DOINGS

(Continued from Page 1)

son she feels the ground purchased for a club house must be large enough to allow for a big auditorium and a proper setting. With this problem in mind she explained the negotiations which the committee has conducted and the propositions it has received to take the club lots in exchange for others with some cash to boot to be paid by the club. These were enumerated as follows:

Three lots on the corner of Doran and Central Avenue, 150x160, the 160-foot frontage facing north, the 150-foot frontage facing east. The owners will take the two club lots in exchange with an additional $2000 in cash.

Another location is at the corner of Doran and Central, and is 100x160 feet, with a bonus of $1000 in cash. As one of the lots is a "key lot" Mrs. Kinney felt doubts about it. These two are a part of the three first named and face on Central. They are inside lots.

Still another proposition was for three lots on Central Avenue between Burchett and Doran, where the two lots could be applied in payment with a difference of $1800 cash.

She stated that some other locations had been mentioned, but no definite propositions had been obtained. She asked club members to consider these propositions and also to report to the committee any other propositions they might be able to obtain for good club house locations that the matter might be brought before the club at its next meeting when a vote will be taken, as the board wishes to have an expression from the club before it takes action.

Following the business session, Rev. E. H. Willisford addressed the club briefly on the "Near East" drive. He explained how antagonistic are the Mohammedans to the Red Cross as a symbol in any form and for that reason how impossible it is for the organization we know as the "Red Cross" to carry on this relief work in Assyria, Persia and Armenia; how a group of prominent men of this country went before Congress and received authority to form a Near East Relief Organization which should be responsible to the government for all moneys received and expended. After briefly referring to the awful need, particularly among the children and the young women taken into slavery, he explained the plan of the campaign, particularly in this city where the allotted amount is only $3640 out of the million dollars the State of California is expected to contribute. He stated that it would be taken up in all the churches, where it has not already been presented and that next week Tuesday and Wednesday a house to house canvass will be made. He closed with an urgent appeal to the women present to not only contribute money to the fund but to volunteer as workers in the house to house canvass.

Mrs. A. A. Barton then presented the project for a municipal swimming pool in the new Kenilworth Park which the city has just acquired and which its promoters are endeavoring to finance by personal subscriptions. She answered the question: "Why can it not be included in the city budget?" by stating that the budget will not be made up until next summer and that the money will not be available until taxes come in next fall, thus postponing the possession more than a year. She reported that an enthusiastic canvass is being made by Mrs. Guitard, a club member, and urged other members to rally to her support. Answering a question as to the estimated cost she named a figure of '10,000 as necessary to provide a large and up-to-date pool which would be tile lined. She also said the plan called for a supervisor who would be on the grounds all the time.

Mrs. A. W. Tower announced that the official board of the club had voted donations to both the swimming pool and the Near East Relief Fund.

Mrs. Marlenee then played most beautifully Chopin's scherzo in F. Sharp Minor, explaining that the term "scherzo" ordinarily means "jest" but that this composition while in the musical form of the scherzo expressed anything but jesting on the part of the composer who was filled with anguish over the threatened destruction of his beloved Poland and who in this voiced his grief and despair. Mrs. Marlenee's sympathetic interpretation moved her audience, which unanimously demanded an encore, and was gratified by one of Liszt's most beautiful and tender creations.

The orator of the afternoon, ex-Senator George C. Cartwright, spoke on Americanism and the mutual interests of capital and labor. His talk was along lines similar to those of the speech he recently delivered in this city. He pictured the very real menace of Bolshevik propaganda in this country and described the treasonably, incendiary utterances to which he had listened in big meetings held in the Coliseum in Chicago and at the Lyceum in New York where radical orators played upon the prejudices of the people and disparaged conditions here as compared with Soviet Russia. He declared that John Kirkpatrick, who addressed the New York audience, is a hypocrite who is in the movement for the money he gets out of it and who would seek a zone of safety should any considerable number raise the red flag and follow his advice. Mr. Cartwright also declared he had heard the same propaganda in street meetings in Los Angeles. All these orators, he insisted, are iconoclasts and none of them has any practical remedy for injustices complained of. He endeavored to convince his audience as he himself is convinced that the revival of true Americanism is the cure for the evils and the unrest, the discontent in this country.

FOR GOOD OF SCHOOLS

(Continued from Page 1)

lar body. Nobody probably believed at the time this site was selected for school purposes that Glendale was going to grow or would the business center extend to the point it has; and if they had foreseen such a condition, neither would the people at that time have been able to look upon it in the same way and given the board the necessary support to have allowed them to secure properties of sufficient size which would have permitted a future arrangement in grouping of buildings.

Now that we have these properties and realize that they are inadequate, would it not be better to acknowledge that now and determine on a future course, using the present buildings for a period of possibly five years?

Why should Glendale School District be second to any School District in class of buildings or properly located campus? A campus of the proper size in the right location is the first qualification necessary—then the proper grouping of buildings for class rooms, auditorium, science buildings, gymnasium and athletis fields, etc., can be made to take care of all requirements up to a time when the district may be divided, or a second group of buildings arranged for in the same district.

The real assets of school properties should be in first class up-to-date buildings and equipment, and not necessarily in having the highest priced business properties. The highest standard of efficiency may be had in our school system, if buildings and equipments be given first consideration.

It is not very probable that the finest kind of school buildings could be of any asset to a center business block, such as Brand Boulevard between Harvard and Colorado is sure to be if not used for school purposes. Our sister districts have been confronted with this same problem, and have avoided in every instance, possibly excepting one, allowing their school locations to become too close to business centers. I am referring to Eagle Rock, Pasadena, Sawtelle, Santa Monica, Palms, San Fernando, Fullerton, Orange, Anaheim, Ventura and Santa Paula, Burbank, possibly being the exception.

Alfred F. Priest.

Glendale, Feb. 24, 1920.

COLUMBIA RECORDS

"When the Lanters Glow," sung by Campbell and Burr for Columbia Records this month, is a genuine Japanese novelty song with real Oriental effects. On the reverse of this record James and Harrison sing "Just Like a Rose," a beautiful love ballad.

"All I Have Are Sunny Weather Friends" is the sentiment of another Campbell and Burr duet sung for Columbia Records. The instrumental interlude of Bullard's "Stein Song" in this selection is particularly fine. The coupling is Lewis James' musical lyric, "Now I Know."

Prince's Orchestra plays "Oh, What a Pal Was Mary," and "Carolina Sunshine," two tremendous vocal hits, as medley waltzes. The incidental solo chorus by Fred Hughes in the former and the incidental duet by Campbell and Burr in the latter are most effective.

Toscha Seidel, that prince of violinists, shows all his art in that simple popular melody, "I'm Forever Blowing Bubbles."

PROHIBITION AND PROFITS

Richard Spillane, a financial authority, casting up a balance sheet of the gains and losses which the nation will experience as a result of prohibition, says: "If prohibition increases the production of American workers two per cent, it will on our present basis more than pay all the revenue received by Federal, State, and city governments last year from the liquor traffic—and last year's revenue was more than double the normal. If it increases production five per cent, it will put America far, far ahead of any nation on earth. And incidentally, it will raise the human standard higher than ever before—make for better men, better women, better children. All these are factors in prohibition from a business viewpoint."

RECORD TELEPHONE SERVICE

The largest private telephone branch in the world is the one which serves the expanding needs of the war department. On July 1 this branch served 3178 extensions; on August 1, 3626. It requires 126 trunk lines for incoming calls; 76 for outgoing calls, local and submarine toll; 17 private toll lines to New York, Philadelphia, Baltimore, via Cleveland, Hoboken and Newport, News, and 105 tie lines to other government stations in Washington.

MAKING MISTAKES

When a plumber makes a mistake, he charges twice for it.

When a lawyer makes a mistake, it is just what he wanted, because he has a chance to try the case all over again.

When a carpenter makes a mistake, it's just what he expected.

When a doctor makes a mistake, he buries it.

When a judge makes a mistake, it becomes the law of the land.

When a preacher makes a mistake, nobody knows the difference.

But when an editor makes a mistake—Good night!—Exchange.

CONSCIENTIOUS

Frances and Agatha had been very carefully reared. Especially had they been taught that in no circumstances must they tell a lie—not even a "white lie."

One day, during a visit made by these little girls to an aunt in the country, they met a large cow in a field they were crossing. Much frightened, the youngsters stopped, not knowing what to do. Finally Frances said,

"Let's go right on, Agatha, and pretend that we are not afraid of it."

But Agatha's conscience was not slumbering. "Wouldn't that be deceiving the cow?" she objected.—Harper's Magazine.

LITTLE THINGS

The most important and vital things of life are thought out in quiet, and it is often the apparently little things that are most vital. Tired, harassed mothers—stop to realize for a moment, that you will not forever be mending, toiling, ministering to your little ones; they soon outgrow the need, and then your hands and hearts are so empty! Do you quietly think enough to understand how fully you are "serving," in the biggest sense of the word, when you are fitting these little ones for life?

HARRY'S ARITHMETIC

Harry had just begun to go to school, and was very proud of what he learned. One day he thought he'd show his father how much he knew and ask him at dinner:

"Papa, how many chickens are there on that dish?"

"Two, my boy," said papa. "I thought you knew how to count?"

"You're wrong," said Harry. "There are three. That's one, that's two and two and one makes three."

"Very well," said the father, "your mother may have one for her dinner, I'll take the other and you can have the third."

It is said that the United States, in proportion to its population, has only half as many booksellers today as it had 50 years ago.

Have the House WARM

Every precaution should be used while the influenza is epidemic to prevent this distressing affliction from gaining a foothold in the family. There should be plenty of fresh air in every room of the house—but not cold air. This is a trying season at best and the house should be well warmed to prevent colds.
